Unser Projekt

Odoo

<https://de.wikipedia.org/wiki/Odoo>

TRMNL

<https://www.sparkfun.com/trmnl-e-ink-dashboard-7-5-inch.html>

Was ist Odoo?

- Open Source
- Für Unternehmen
- 50'000+ veröffentlichte Module

<https://de.wikipedia.org/wiki/Odoo>

Architektur hinter Odoo

- MVC-ähnliches Prinzip
- Modularer Aufbau
- hohe Erweiterbarkeit

XML, JS, CSS

Presentation tier

The top-most level of the application is the user interface. The main function of the interface is to translate tasks and results to something the user can understand.

Python

Logic tier

This layer coordinates the application, processes commands, makes logical decisions and evaluations, and performs calculations. It also moves and processes data between the two surrounding layers.

PostgreSQL

Data tier

Here information is stored and retrieved from a database or file system. The information is then passed back to the logic tier for processing, and then eventually back to the user.

Unser Odoo Modul

trmnl

 TRMNL Devices Profiles

New

Profiles
New ⚙️ 🔒 ✕

Test Send

Name	Room1
Device	Display1
Calendar users ?	Administrator ✕
Odoo app ?	Calendar
Layout Type ?	Calendar
Calendar View Mode	Weekly
Week scope ?	Mon–Sun (7 days)
Active	☒

Wie funktioniert es?

unschöne (standardmässige) Version:

Odoo → TRMNL Server → TRMNL Display

unsere Lösung:

Unser Odoo Modul → TRMNL Display

Danke fürs Zuhören
